Workshops are typically held each year

For a proposal to be considered complete, the following must be submitted:

- Proposal form and Cost estimates/ Contractor quotes by September 30, 2021

We recommend submitting as soon as possible, as there are a high number of proposals and not all projects submitted will be funded. If selected, an agreement with the USFWS will be required prior to all work. In addition, Federal, State, and/or local permits will be required depending on the type of project. The signed agreement and all permits must be in hand BEFORE any work can begin. We encourage you to communicate with the program staff when developing a proposal.

I am interested in the cooperative bank rehabilitation program and in obtaining matching funds for the Cost-Share Program as described above.
